MAKING A DIFFERENCE WITH SOAP

Dan Springer is saving people's lives with soap. It all started seven years ago as a special project in his basement in Texas.

At that time, Dan traveled a lot as part of his job. Whenever he stayed in a hotel, he was given a bar of soap like all the guests. One night Dan wondered what the hotel does with the used bars of soap after the guests leave. The manager told him that they are thrown away.

While doing some research, Dan discovered that millions of used bars of soap from hotels all over the world are thrown away daily. He also read an interview with Dr. William Warren from the United Nations. Dr. Warren said that many people in developing countries are dying from diseases that could easily be prevented by the use of soap.

"Keeping clean is a huge problem in developing countries. Many deadly diseases are spread through the bacteria on our hands," Dr. Warren explained. "In the U.S. it's easy to keep clean. Americans can find soap everywhere, including public toilets, restaurants and schools. This isn't true in many other countries." Dr. Warren remembered visiting a hospital in Africa where there was so little soap that patients had to bring their own soap from home.

To help solve this problem Dan started his project. The company that developed from this small project is now called "Clean the World." It recycles soap that it collects from more than 4,000 hotels. It has factories in Las Vegas, Orlando and Hong Kong. These are cities with many hotels where thousands of bars of used soap can be easily collected every day.

The soap is recycled through a simple process. First, it is put into machines that cut it up and remove the bacteria. It is then made into new bars of soap.

- 25 The company has donated 25 million bars of recycled soap to over a hundred countries. It also sends its own teams into rural communities to teach people the importance of washing their hands.

"Many people are surprised to discover that one of the most effective ways to prevent disease and death is by just washing your hands with soap," said

- 30 Dan. "We're hoping to make a difference."
